Surgery Exchange LLC Achieves SOC 2 Type 2 Certification for the Third Consecutive Year

Alpharetta, GA – February 27, 2024 – Surgery Exchange LLC, a leading provider of automated solutions to help hospitals manage high-value physician preference items (including bill only), proudly announces its successful attainment of SOC 2 Type 2 certification for the third consecutive year. This remarkable achievement underscores Surgery Exchange LLC's steadfast commitment to maintaining the highest standards of security, availability, processing integrity, confidentiality, and privacy of client data.

The SOC 2 Type 2 certification is awarded to organizations that demonstrate stringent control objectives and have effectively implemented policies and procedures regarding the security, availability, and processing integrity of the systems used to handle clients' data. This certification serves as a testament to Surgery Exchange LLC's dedication to safeguarding the interests and data of its esteemed clients.

"Securing SOC 2 Type 2 certification for the third consecutive year is a significant milestone for Surgery Exchange LLC," stated Amin Rahme, Founder and CEO of Surgery Exchange LLC. "It signifies our ongoing commitment to maintaining the highest level of security and trust with our clients. This certification reaffirms our pledge to protect their data and provide them with the peace of mind they deserve."

The rigorous SOC 2 Type 2 audit process entailed a comprehensive examination of Surgery Exchange LLC's systems, policies, and procedures by an independent third-party auditor. The audit evaluated various facets, including the efficacy of security measures, system availability, and data processing integrity over a specified period.

"We are thrilled to have successfully concluded the SOC 2 Type 2 audit for the third consecutive year," expressed Mike Bland, Vice President of Information Technology and Security at Surgery Exchange LLC. "This accomplishment underscores our unwavering commitment to maintaining the highest standards of security and compliance amidst the ever-evolving landscape of cyber threats. It also reflects the dedication and diligence of our team members who prioritize security in every aspect of our operations."

With SOC 2 Type 2 certification, Surgery Exchange LLC continues to assure its clients of its dedication to safeguarding their sensitive data and upholding the highest

standards of security and compliance. This achievement further solidifies Surgery Exchange LLC's position as a trusted partner in delivering secure and reliable solutions to its clientele.

Surgery Exchange LLC's hospital clientele includes a diverse range of healthcare institutions across the nation, ranging from community hospitals to large medical centers. These hospitals rely on Surgery Exchange LLC's innovative solutions to streamline their operations, optimize efficiency, and enhance patient care.
